

Color Wheel Magic

Workshop by Mary Anne Ciccotelli

You will make this 3-D Color Wheel. This is a quilter's dream come true if you are looking for a reason to purchase lots of different fabrics.

Don't have time to shop or not the right colors in your stash? Not a problem! Kits will be available for the **color wheel portion** of the project. However, each quilter must supply the background fabric.

Supply List

Fabrics:

***Color wheel points:** one 7" square of each of the 12 colors (medium value):

- | | | | |
|---------------|------------------|---------------|-----------------|
| 1) red | 4) yellow-orange | 7) green | 10) blue-violet |
| 2) red-orange | 5) yellow | 8) blue-green | 11) violet |
| 3) orange | 6) yellow-green | 9) blue | 12) red-violet |

(When choosing fabric, refer to a color wheel for accuracy.)

***Flying geese points:** 36 – 3" x 4" rectangles

(One light, medium and dark of each of the twelve colors listed above)

Background and binding fabric: 1½ yds

(ALL quilter's must supply; not included in the color kit)

Backing: ¾ yard 100% cotton

***Color kits** will be available to purchase for \$25.00

(Each kit includes batik fabric for 12 color wheel points and 36 flying geese points)

Note: This project can be constructed from any color combination you desire.

Other:

Color Wheel Magic Pattern \$10.00 (available at the workshop)

sewing machine and supplies

(manual, extra needles, oil, extension cord, power strip, pillow to sit on, etc.)

¼" foot

thread to match background fabric

small rotary cutter w/sharp blade (approx. 28mm size)

rotary cutting mat

alternate rotary cutter (I have an extra one that I put my used blades in and use on paper)

rulers (6" x 24" and 6" x 12")

heavy duty template plastic

permanent marker

scissors (paper & fabric)

pencil or chalk pencil (marks should show up on the background fabric)

glue

pins

seam ripper

Additional supplies need to complete the project (probably will not need at the workshop):

27" square high loft polyester batting (optional - for trapunto if desired)

water soluble thread (optional - for trapunto if desired.)
